

# Gentle videos for calm moments.

For nap time and waiting areas  
Calm, continuously playing ambient videos for facilities

## About Moriris

Morris is a collection of wordless forest videos, created using only sound and gentle motion.

The videos are designed to blend naturally into a space without overstimulating children or viewers.

Can be used as background ambience — simply play and let it run.

- 1 No words or captions  
Suitable for all ages and nationalities
- 2 60-minute videos with loop design  
No operation required once playback starts
- 3 Ad-free and safe for facilities  
Created specifically for use in institutional settings

## About the Videos

- Dinosaur characters quietly and gently spending time in a forest
- No fast movements or strong visual effects
- Multiple videos available for different use cases (more will be added over time)

Nap time / sleep preparation    Free play and waiting time

Cool-down after activities or reading time

Creating a calm environment when needed

## Usage

- Monthly subscription (for facilities and organizations)
- Playback is permitted within facilities
- Use on multiple devices is permitted

All illustrations and videos are originally created and designed specifically for facility use.
